YES, I want to become partner of the Automotive Cluster!

Part of the annual funding needs of the cluster are covered by the partner contribution (annual fee) of the partner companies. Depending on the size of the company, the partner contribution per year is:

€ 750,-- (excl. VAT) for small and medium-sized companies (SME)

€ 1.490,-- (excl. VAT) for large companies (starting from 250 employees)

Mark with a cross where applicable!

SME definition: The EU defines small and medium-sized enterprises (SMEs) as follows:

- Employees: <250
- Either annual turnover <50 million Euros or annual balance sheet <43 million Euros
- Participation of one or more large companies: max. 25%

The SME property is only given if all three criteria apply.

The partner contribution applies in each case for the current calendar year. The termination of the partnership is possible in writing with a term of notice any time until November 30th of the current year. A termination made after November 30th will not take effect until the end of the following year. There will be no pro rata refund in case of a prematurely terminated partnership. The partner contribution is subject to an annual index adjustment.
